Solution Architecture

Date	30.09.2026
Project Name	Import Data Using Transform Maps (Spreadsheet)
Maximum Marks	5 Marks

SOLUTION ARCHITECTURE DIAGRAM

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
Presentation Layer	Upload spreadsheet and start the data import process	ServiceNow
Import Layer	Receives spreadsheet data and stores it in the import set table	Import Set
Transform Layer	Maps spreadsheet columns to target table fields and transforms the data	Transform Map
Validation Layer	Checks required fields, duplicate records and data accuracy	ServiceNow Validation
Data Layer	Stores the final employee records	Custom Employee Table
